

Designed to Perform - in Tune with You

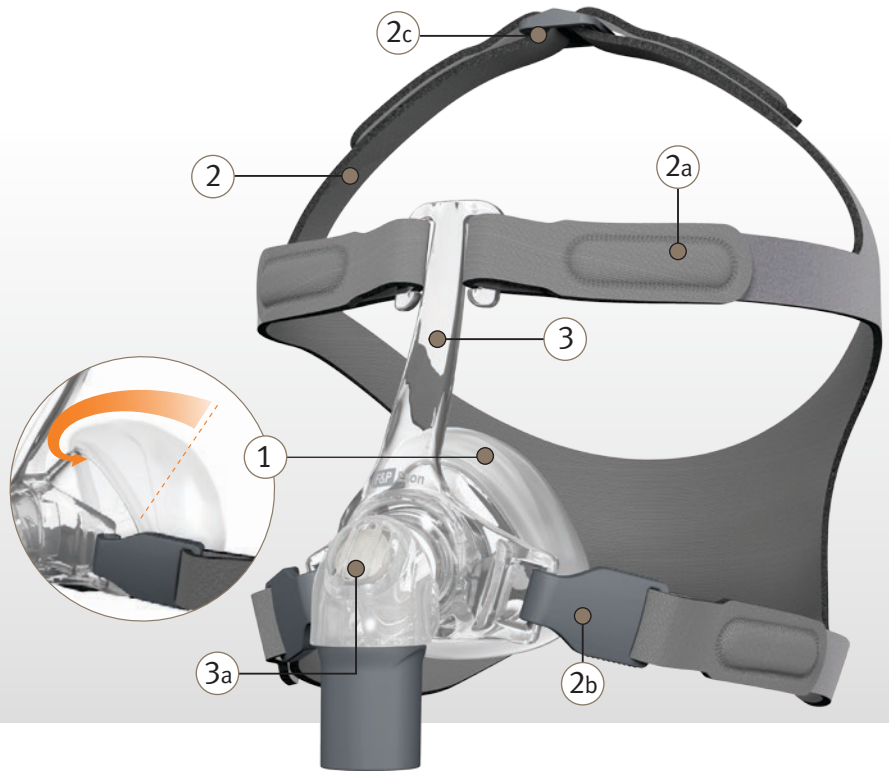

F&P ESON NASAL MASK

The F&P Eson is designed to perform in tune with you and your needs.

This compact nasal mask is packed with technological innovations orchestrated to provide effective CPAP therapy.

The F&P Eson's three key components, the **RollFit™ Seal**, **ErgoFit Headgear** and **Easy Frame** work in harmony. These three key components have been designed to deliver the comfort, seal and easy use that Fisher & Paykel Healthcare masks are known for.

1. RollFit Seal

As the name suggests, the one-piece seal 'rolls' back and forth on the bridge of the nose to adjust automatically. In doing so, the **RollFit Technology** reduces pressure on the bridge of the nose.

The **RollFit Seal** enhances sealing performance and stability.

2. ErgoFit Headgear

This breathable, ergonomically designed headgear has been made to self-locate high on the rear of the head, allowing for head movement (sideways, up and down).

The **ErgoFit Headgear** also incorporates embedded **VELCRO®*** **Tabs** (2a) with **Easy-Clip hooks** (2b) for fast fitting and removal.

The adjustable **Crown Strap** (2c) enhances mask stability.

* VELCRO® is a registered trademark of Velcro Industries B.V.

3. Easy Frame

This low-profile frame is stable, durable and small, and ensures a clear line of sight.

The one frame fits all three seal sizes and has an **Easy-Clip** frame attachment to aid assembly after cleaning.

The **Easy Frame** comes with the **Q Cover** (3a) for quiet use¹ and minimal partner draft.

The **Ball and Socket Elbow** rotates for freedom of movement while reducing drag from the CPAP tube.

Mask Reorder Codes		Spare Parts Reorder Codes			
400449	F&P Eson Mask – Small	400HC567	F&P Eson Headgear – Small	400HC228	F&P Eson Diffuser (10pk) and Cover
